LinkedIn Profile Checklist for Construction Professionals

Advisory checklist - recruiter behaviour varies and visibility cannot be guaranteed.

Headline

- More than your job title: role + specialism + sector
- Example: "Senior Site Engineer | Highways & Structures | Temporary Works | Setting Out"
- Uses words recruiters genuinely search

Photo and banner

- Clear, professional head-and-shoulders photo
- Banner image relevant to your sector (site, infrastructure, project)

About section

- First two lines earn the click ("see more" cuts the rest)
- Your specialism, sectors, project types and direction - in first person
- Honest keywords woven naturally, not listed

Experience

- Titles and dates match your CV exactly
- Each role: 2-4 lines + project evidence bullets
- Name methods, standards, software and sectors truthfully

Skills

- Up to 50 allowed - prioritise the searchable, role-relevant ones
- Pin your top 3 to match your target role

Featured section

- Add: project photos (where permitted), certificates, articles, portfolio

Settings

- "Open to work" set for recruiters (visible to recruiters only if employed)
- Location and industry set correctly
- Custom URL claimed (linkedin.com/in/yourname)

Activity

- Comment on industry posts weekly - visibility compounds
- Connect with recruiters in your sector with a short, honest note
